ABOUT ME

My name is Shivam Kumar. I am a dedicated and enthusiastic person who believes in hard work and honesty. I love learning new things and improving my skills every day. I enjoy working in a team and helping others. My interests include technology, reading, and creativity. I always stay positive and focused on my goals. My dream is to build a successful and respected career.

EDUCATION

Pursuing Bachelor of Technology in Computer Science & Information Technology from Sagar Institute of Research and Technology, Bhopal (M.P), batch 2023 – June 2027. Completed 10th and 12th from the Bihar School Examination Board, Patna, with good academic performance.

PROJECT

FraudGuard – Safe App Detector: A security tool built using HTML, CSS, JavaScript, Node.js, and MongoDB/MySQL that detects fake mobile applications by scanning app data, analyzing app information, and verifying authenticity, featuring a fully designed backend with API endpoints, ER diagram, and an interactive UI/UX interface.

Image Posting Feature: A web module developed using HTML, CSS, and Node.js that allows users to post, view, edit, and delete images with a user-friendly frontend interface and backend support for basic CRUD operations.

Weather App: A responsive weather application built using HTML, CSS, JavaScript, and WeatherAPI that provides real-time weather updates based on user-inputted locations, featuring a clean UI and dynamic data rendering from an external API.
